Dear Fabulous Fadden Families

This week the weekly wrap up is coming from Katie King.

It has been a busy, wet week at Fadden Primary School, however the rain didn't stop us from getting creative in our library. I was blown away with these Duplo creations by Alex, Hudson and Jasper.

On Wednesday our Years 3 and 4 students participated in a set of science investigations at Geoscience Australia. The next day Ms. Wright shared her own crystal collection and knowledge with the classes. Thanks to our Year 3 and 4 teachers for organising this fantastic learning opportunity for our students. Well done to all the students for showing their Fadden school values while on the excursion.

This week all of our students and teachers were busy preparing for 3 way conferences happening next week. If you did not manage to book an appointment please contact your child's teacher asap to arrange one, as this event should not be missed. Please remember that these conferences are different from a formal interview and are an authentic opportunity for students to be leaders of their learning, and therefore we don't expect perfection, as this is your child's first attempt at participating in this type of conference. We ask that families be supportive and positive to support our growing leaders of tomorrow. Don't forget to bring you child to the conference and complete the feedback form to let us know what your thoughts are.

This week we also saw Jordan S, Hannah C, Cesc, Lily J and Alana R represent our school at the Tuggeranong zone swimming carnival. We are so proud of them as it is such an awesome achievement to just qualify to compete at this level.

On Thursday next week we are having our final assembly for the term. This is a special easter hat celebration assembly run by our school leadership council. The school leadership council have organised hat making stations during our lunch and recess times next week for all the students to make their own hat for the parade. All classes will be participating so unfortunately that will mean we cannot have any parents attending due to our current COVID-19 restrictions. We will however try to take loads of photos to share with you all in our weekly wrap up. This will also mean that there will be no Fadden Friends coffee and chat next week, but we are looking forward to holding something similar in term 2.

Last week we mentioned hazardous materials in schools (lead paint and asbestos). We have since been provided further information which is an attached to this email. If you are concerned and would like to see the assessment reports and information, we have on lead paint and asbestos, you are welcome to request to view the folder in the office. The Directorate is also hosting a drop-in session in each region, where parents and carers can talk to experts – these will occur in week 4 of term 2 at Lake Tuggeranong College, Wednesday 12th May, 6.00 - 8.00pm. This session will include a short presentation and a question and answer session.

Have a fabulous weekend.

Katie King
